

Regional Distribution Center Review

This review covers throughput and reliability across three regional distribution centers for the first quarter of 2026. Overall performance improved compared to the previous quarter, with the Kigali hub leading in both volume and on-time delivery. Fuel costs rose slightly due to regional price increases in February, adding roughly 6% to logistics spend across all sites.

Center	Shipments	On-Time %	Avg Cost (USD)
Kigali Hub	4820	96.5	12.40
Musanze Depot	2130	91.2	14.10
Huye Depot	1750	89.8	15.75
